## MATHEMATICS <br> Content Area Degree Planning Guidelines

A minimum of 30 semester credits in Mathematics is required. A minimum grade point average of 3.0 overall and in Mathematics is expected. As part of your planning process for the Master of Arts in Teaching Program, please complete this form with your advisor. The courses listed below are examples of the kinds of courses that would fulfill the 30 semester credit hours in your content area. These courses or their equivalents should be a minimum of 3 credits each unless otherwise noted. A minimum of 6 of the 30 credits should be completed at or above the 300 level.

| Required Mathematics Courses <br> (30 credits) | Your Equivalent - Include <br> Course Title and Description | Grade | Completion <br> Date | Institution | \# of <br> Credits |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Calculus Sequence (9 cr.) <br> Examples: <br> Calculus I <br> Calculus II <br> Calculus III <br> Real AAnalysis <br> Multivariate Calculus |  |  |  |  |  |
| Algebra (6 cr.) <br> Examples: <br> Linear Algebraba <br> Algebraic Theory <br> Modern Algebra <br> Abstract Algebra |  |  |  |  |  |
| Geometry (3 cr.) <br> Examples: <br> Foundations of Geometry <br> Elementary Topology <br> College Geometry |  |  |  |  |  |
| Statistics and Probability (3 cr.) <br> Examples: <br> Discrete Probability <br> Elementary Statistics <br> Introduction to rrobability <br> Regression Analysis <br> Multivariate Statistical Analysis |  |  |  |  |  |
| Additional Math Courses (9 cr.) <br> Examples: <br> Number Thery <br> Differential Equations <br> Applied Mathematics <br> Logic <br> Discrete Mathematics <br> Mathematical Analysis <br> Complex Variables |  |  |  |  |  |
